

Job opportunity	Senior Field Service Engineer
Geographic location	Europe / The Netherlands
Activity	Technical innovation
Reference	I4L-JOB-PROFILE- FSE
Type of contract	Full time

Inno4Life is an expanding company, located in Breda, the Netherlands. Our company offers a complete range of solutions in Equipment & Services, System Integration, System Optimization and independent Expert Advice in the Pharmaceutical and Bio-Tech industry. Inno4Life has a well-known international client base and a solid network of strong partners.

Inno4Life is currently looking for a sr. field service engineer who feels attracted to act in a fast growing and strongly regulated international business environment, in a niche segment in the Pharmaceutical and Bio-Tech industry

Our focus is on development of new machines and equipment, optimizing existing solutions, operational excellence, and providing excellent customer services. The informal company culture is built on integrity, trust, respect and commitment. Are you the passionate professional, who can make the difference?

Profile:

You are an experienced technician with a mechanical - /software- /electrical background with interest in specification, design, technical analysis, installation and testing equipment /machines for clients in the Life science industries.

The position involves approximately 50% of travel, on average, and includes domestic and international travel for on-site project implementation, troubleshooting, training, and customer support services.

Desired Skills & Expertise:

The Senior Field service engineer needs a minimum of 4+ years of experience in the Pharmaceutical- or Life sciences industries. A Bachelor degree in electrical, mechanical or mechatronic engineering is a minimum requirement. You have theoretical and/or practical experience with machine design, interests in position measurement systems, handling systems, control engineering, PLC, dynamics and robots. Experience in multidisciplinary project work involving electronics software and or mechatronics is a plus (e.g. CAD, CAM, PLC). You are flexible and able to work both autonomously and in a dynamic, interdisciplinary team environment. Good communication skills in Dutch and English and being a pleasant, solid team player are considered a plus.

Education level: Bachelor

Experience level: Mid -Level

Languages: Dutch and English
